Most archaeologists today have concluded that there is no evidence that the Exodus of Israelite slaves from Egypt ever happened. Filmmaker Timothy Mahoney faced a crisis of faith. Was this foundational event of the Bible really just a myth?

Join Tim as he embarks on a journey around the world to search for answers. See as he comes to a startling revelation: What if evidence for the Exodus has been overlooked because experts have been looking at the wrong time in history?

*Patterns of Evidence: The Exodus* unlocks the mystery of this ancient saga, combining a scientific investigation with a retelling of the Exodus story to reveal an amazing pattern of evidence matching the biblical account that may challenge our understanding of history. Could this really be evidence of the Exodus? What really happened 3,500 years ago?

This film features narration by Kevin Sorbo (*God's Not Dead*, *Hercules: The Legendary Journeys*), interviews with leading archeologists, and guest appearances by Israel's Prime Minister Benjamin Netanyahu and President Shimon Peres.
